Wholesale & Retail Trade and Professional & Business Services job prospects remain unchanged.

Hiring Plans Across the United States

U.S. employers plan to continue hiring at a solid pace in Q2 2020 with an Employment Outlook of +19%*. The survey of more than 11,250 employers shows positive hiring intentions across all 12 industries with the strongest Outlooks in Q2 reported in Leisure & Hospitality (+28%), Transportation & Utilities (+24%), Wholesale & Retail Trade (+22%) as consumer confidence keeps the economy and the labor market on a solid footing.

“U.S. consumers are remaining confident and as long as consumers keep spending, our experience tells us that jobs will follow, which is reflected in the steady hiring Outlooks in Q2,” said Becky Frankiewicz, President of ManpowerGroup North America. “Like the rest of the world, U.S. employers remain cautious, particularly in manufacturing as trade negotiations continue and hiring intentions soften for the coming quarter. The reality is U.S. employers have added jobs every month since October 2010 and demand continues to outpace the supply of skilled workers. When jobs are plush, it takes more than pay to attract and keep talent. Our research of over 2,000 workers shows the best way to compete in a talent-scarce environment is three-fold: offer people flexibility over when and where work gets done, challenging work to learn new skills plus competitive pay.”

- Employers in all 12 U.S. industry sectors expect to add workers during the upcoming quarter: Leisure & Hospitality (+28%), Transportation & Utilities (+24%), Wholesale & Retail Trade (+22%), Professional & Business Services (+21%), Construction (+20%), Government (+18%), Durable Goods Manufacturing (+16%), Education & Health Services (+17%), Financial Activities (+14%), Information (+13%), Other Services (+12%) and Nondurable Goods Manufacturing (+12%).
- The Outlook in the Midwest (+21%) remains at a 19-year high, flat quarter-over-quarter and 2 percentage points higher year-over-year. Hiring intentions in the West (18%), Northeast (17%) and South (21%) all decline by 1 percent quarter over-quarter. In the West and Northeast, the Outlook declines by 1 percentage point compared to a year ago, while employers in the South report an increase of 1 percentage point.
- Employers in Alaska (+34%), Maine (+34%), Virginia (+30%) and Wisconsin (+30%) report the strongest Outlooks nationwide. Of the 100 largest metropolitan statistical areas, the strongest job gains are expected in Virginia Beach, Va. (+37%), Madison, Wis., (+35%), Charleston, S.C. (+34%) and Deltona, Fla. (+34%).
