The Trends Driving Transformation are Not New, but Newly Urgent

This recovery is unlike any we have ever seen – demand for skills is at record highs in many markets and unemployment levels remain high while workforce participation stagnates. Uneven economic growth continues with some markets recovering while others lag, hampered by Covid variants, lockdowns and supply chain challenges.

1 in 5 organizations Globally are having trouble finding skilled tech talent. - ManpowerGroup: Great Realization 2022

5 million jobs may be displaced by a shift in the division of labor between humans and machines, more than offset by 97 million new roles anticipated to emerge. - WEF: 2021 Future of Jobs Report

81% of employees expect training programs from their employers to help keep skills up to date. - 2021: Edelman Trust Barometer: The Belief Driven Employee
Q3 EMPLOYMENT OUTLOOKS:
Hiring Expectations Heat Up As Employers Look to July Through September

“While it’s encouraging to see employers have the intention to hire workers, it’s been increasingly difficult for them to find the talent they need.”

- Jonas Prising, ManpowerGroup Chairman & CEO
Global Employment Outlook Q3 2022

In the 60th anniversary edition of the ManpowerGroup Employment Outlook Survey of more than 40,000 employers, 28 of the 40 countries report higher intentions than the previous quarter. Employers around the world are still expecting to hire more workers in the third quarter of 2022, reporting a seasonally adjusted, Net Employment Outlook of +33%. Hiring intentions increase year-over-year and quarter-over-quarter, +18% and +4%, respectively.
When considering how staffing levels will change for the third quarter, employers in **39 of 40** countries report positive NEOs.
The Great Hiring Bounceback Expected to Maintain Momentum in Q3

With strong outlooks across the regions, employers in South and Central America (+44%) reported the most positive outlook followed by North America (+42%), APAC (+32%) and EMEA (+25%).

Countries With the Strongest & Weakest Hiring Prospects for Q3 2022:

- Strongest:
  - MEXICO: +59%
  - BRAZIL: +54%
  - INDIA: +51%

- Weakest:
  - GREECE: -1%
  - TAIWAN: +3%
  - JAPAN: +4%
Strong Outlooks Year-over-Year & Quarter-over-Quarter

Year-over-year, hiring outlooks improve in 36 of 40 markets and in 28 since last quarter.

The strongest year-over-year improvements are reported in India (+46%), Mexico (+40%), and Brazil (+39%).

The strongest quarter-over-quarter improvements are reported in Singapore (+15%), Guatemala (+14%), and India (+13%).
Employers Anticipate Strong Demand for Talent Across Key Sectors

Digital roles continue to drive most demand globally: IT & Technology reported the strongest outlook (+44%), followed by Banking, Finance, Insurance and Real Estate (+38%), Construction (33%) and Manufacturing (33%).

*Includes: Agriculture, Forestry and Fishing; Mining and Quarrying; Electricity; Gas and Air Conditioning Supply; Water Supply; Sewerage, Waste Management and Remediation Activities.

**Includes: Professional, Scientific and Technical Activities; Administrative and Support Services; Other Service Activities.
More people have been returning to work and changing jobs than we have seen for quite some time, resulting in more of a mass reshuffle than a mass resignation and leaving companies disproportionately impacted.

Large Organizations Report Strongest Hiring Intentions
Hiring intentions improve in 21 countries when compared with Q3 2021 and improve in 15 when compared to Q2 2022.

The strongest hiring intentions are in Ireland (+42%), South Africa (+38%), and Portugal (+37%), and the weakest in Greece (-1%), Poland (11%), and both Romania and Slovakia (+12%).

This talent shortage coincides with nearly half (48%) wanting to add to their staff during the third quarter and 16% expecting various decreases.

Once seasonally adjusted, the Net Employment Outlook (NEO) is 33%, strengthening by 18 percentage points year-over-year and 2 percentage points quarter-over-quarter.
This talent shortage coincides with nearly half (47%) wanting to add to their staff during the third quarter and 16% expecting various decreases.

Once seasonally adjusted, the Net Employment Outlook (NEO) is 23%, remaining consistent year-over-year and strengthening by 3 percentage points quarter-over-quarter.
This talent shortage coincides with nearly half (41%) wanting to add to their staff during the third quarter and 16% expecting various decreases.

Once seasonally adjusted, the Net Employment Outlook (NEO) is 25%, strengthening by 11 percentage points year-over-year and 1 percentage points quarter-over-quarter.
This talent shortage coincides with more than half (52%) wanting to add to their staff during the third quarter and 14% expecting various decreases.

Once seasonally adjusted, the Net Employment Outlook (NEO) is 38%, strengthening by 24 percentage points year-over-year and 7 percentage points quarter-over-quarter.
As we emerge from the pandemic, this is our collective opportunity to act with urgency, to scale bold, disruptive ideas and collaborations across business, government and education. And now is the time to reshape a better, brighter future for workers – one that is more skilled, more diverse, and more wellbeing-orientated than we could ever have imagined.

– Jonas Prising, Chairman & CEO
ABOUT THE MANPOWERGROUP EMPLOYMENT OUTLOOK SURVEY
About the ManpowerGroup Employment Outlook Survey

The ManpowerGroup Employment Outlook Survey is the most comprehensive, forward-looking employment survey of its kind, used globally as a key economic indicator. The Net Employment Outlook is derived by taking the percentage of employers anticipating an increase in hiring activity and subtracting from this the percentage of employers expecting a decrease in hiring activity. Running since 1962, various factors underpin the success of the Survey:

**Unique**
It is unparalleled in its size, scope, longevity and area of focus. The ManpowerGroup Employment Outlook Survey is the most extensive, forward-looking employment survey in the world, asking employers to forecast employment over the next quarter. In contrast, other surveys and studies focus on retrospective data to report on what occurred in the past.

**Independent**
The survey is conducted with a representative sample of employers from throughout the countries and territories in which it is conducted. The survey participants are not derived from ManpowerGroup’s customer base.

**Robust**
The survey is based on interviews with more than 40,000 public and private employers across 40 countries and territories to measure anticipated employment trends each quarter. This sample allows for analysis to be performed across specific sectors and regions to provide more detailed information.

**Focused**
For more than six decades the survey has derived all of its information from a single question: “How do you anticipate total employment at your location to change in the three months to the end of September 2022 as compared to the current quarter?”

**Survey Methodology**
The methodology used to collect the data for the Employment Outlook has been digitized in 40 markets for the Q3 2022 report.

Responses prior to Q1 2022 were contacted via telephone and are now collected in a double opt-in online panels where members are incentivized to complete the survey.

The question asked and the respondent profile remains unchanged. Size of organization and sector are standardized across all countries to allow international comparisons.
